

# Hospital Management Software

VER- 1.0.1

By

This software is easy to use and user friendly “Hospital Management Software”. It has all those modules which are essential to run a hospital smoothly. The latest version of HMS 1.0.1 includes following features and modules.

## Features

- ✓ **Sober Design**
- ✓ **User Friendly Interface**
- ✓ **Easy Working process**
- ✓ **System Friendly& some more.**

# Modules

## Setting/Master Entry

Setting offers you to setup your hospital before handling this software easily and smoothly with option like Hospital Detail, Departments, Designation, Specialization, Doctor, Room, Bed & other.

# Users Registration

The screenshot shows the 'User Registration' module within the 'Hospital Management System'. The top navigation bar includes links for Setting, Users, Indoor Patient, Outdoor Patient, Payroll, Inventory, Records, Report, Logs, Backup, Recovery, Tools, About Us, Help, and Logout. Below the navigation is a toolbar with icons for IP Registration, Bed Shifting, and various system functions like Reports and Help. The main content area is titled 'User Registration' and contains a 'User Details' form with fields for User ID, User Type (dropdown), Password, Name, Contact No., and Email. To the right of the form is a vertical stack of buttons: New, Save, Update, Delete, and Close. At the bottom is a table showing a single user record:

	User ID	User Type	Password	Name	Contact No	Email	Joinning Date
▶	p	Admin	12345	Biral vihangam	7561910681	biralvihangam@gmail.com	23-12-2017

User Registration gives ease to Admin of the hospital to register Users who will work over this software. Unauthorized access will be terminated immediately.

# IndoorPatient
